Public National Forum on 'Green Growth for the Peruvian Economy'

- May 2016
- Cooperation CIUP – PAGE
- Audience: 143 people from business associations, national and international media, private companies, student associations, embassies, municipalities of Metropolitan Lima and UN Agencies
- Debate between two presidential candidates' teams on the meaning of and opportunities for green growth in Peru

“We envisage Peru as a modern country that makes sustainable use of its natural resources, that is concerned with preserving a healthy environment, and where economic development and environmental sustainability go hand in hand for the benefit of citizens.”

***Elsa Galarza, Minister of Environment,
Peru***
