Climate Neutral UN

Common UN Greenhouse Gas Inventory

United Nations
Environment Management Group

GHG Calculator

- The Calculator will
 - Be user-friendly and customized to UN needs
 - Ensure consistency with the GHG Protocol and UN agreed boundaries
 - Provide default emission factors
 - Facilitate easy aggregation of GHG data
 - Safeguard consistency and transparency

United Nations
Environment Management Group

Two-track Approach

- Track 1
 - Pilot excel calculator
 - Provide an office inventory start-kit
 - Help to identify UN specific needs
 - Timeframe: 2008/2009
- Track 2
 - Online version
 - Improve data collection and reporting
 - Offer a more user-friendly interface
 - Timeframe: mid 2009

United Nations
Environment Management Group

Next steps

- To provide a pilot GHG calculator by end 2008
- To map UN specific needs
- To launch an online database in 2009
